

Book By: Ana S. Bathe

Time Spring 2015

Reviewer

Connections between time and social media is very interesting. It is about the comparison between age and social media/iphone/apps. Very personal. Continuity in text/lines

Reviewer

Jake

I love the size. I like how it was very clean. I like your connection between movies, music, calendars, etc. Good gestalt on the yellow pages w/ #love message conveyed. Figures in them.

Reviewer

Annie Hurley

I love the connections between music, movies, ages, and newspapers, and the concept of "time" very well thought out.

Reviewer

Claire

I like your combination of photos of people with the digital/phone screen images. Your drawing on top also adds to the composition & creates continuance. Strong feelings of similarity.

Reviewer

Charlotte M.

I really think that continuance and similarity are 2 principles that especially stand out in your book due to both the use of bright yellow on every spread as well as the intricate compositions of each page. Your book makes an interesting comment on technology and social media, and the time that passes by us when we use them.

Reviewer

Andrew Kwan

The continuance of relations throughout your book is very well done. Also, the geometric lines are very clever and the writing on the images are well done. The photography is really cute. Nice ways/clever ways of applying different ways of measuring time.

Reviewer

Vanessa.

The quality of your paper is really good, its nice to hold and the images look really good. I like the repetition of the yellow background and people. I realised it took all my attention and barely looked at two sides because the people are so captivating. The use of text on top definitely adds to the message of time and I think you did small things that were fun + different ways of representing time.

Reviewer

Amos

I think maybe I could have made the handwriting clearer and I would have liked to use transparency

Reviewer Pooja	The yellow background on the pages is very striking. The wordings on the page also brings attention.
Reviewer Beate	Nice and creative way of showing to a specific way of time, almost don't need the quote!
Reviewer Yim	Interesting !! Creative! Birthday of each person.
Reviewer Anthony D'Angelo	<ul style="list-style-type: none"> - focus on humans and time, social - 1st 2 pages show continuance with the lines and figure ground - with the people on each page, you sort of attempt to relate the person(s) to what's on the page, which adds interest
Reviewer Kayla Du	Continuance, and closure and similarity are used in the book. Don't really understand the story but the use of people holding the candles is smart and creative.
Reviewer Stone, Zhu,	I like the the book is all connect with yellow and people in side, It's clear that all about the time.
