# Creating A Standard Post

If you're not sure which format to pick, start with this one. You can always add in media, but generally this is for a traditional blog post that includes text and maybe one or two images (optional).
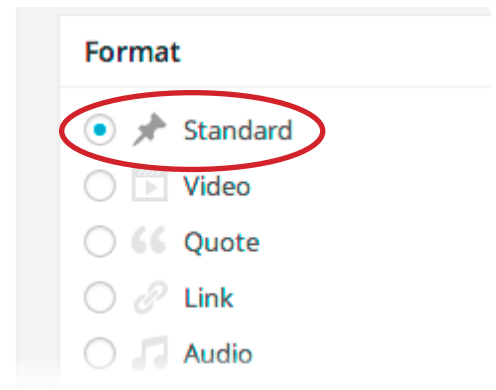

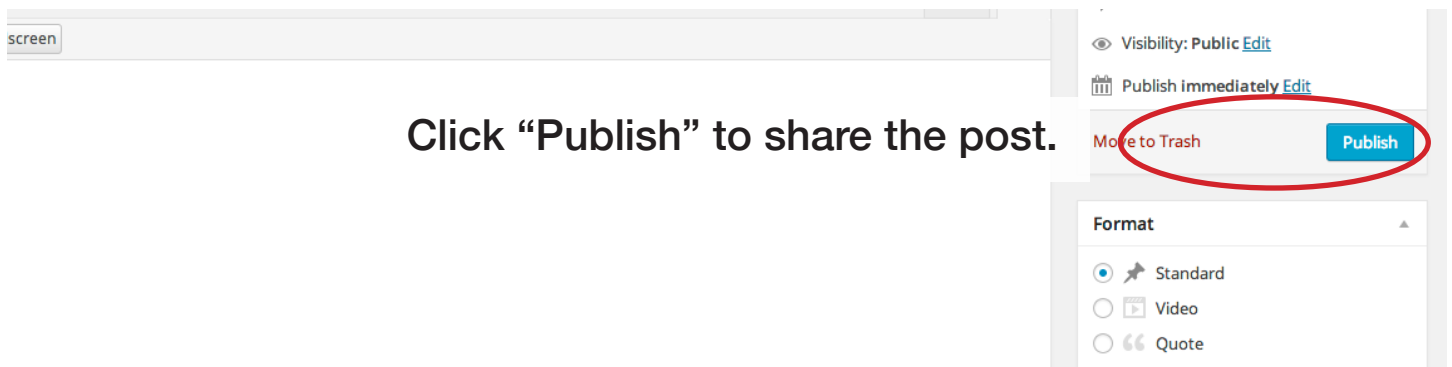

Step 1

To create a new post, click "Add New" from the Posts menu on the Dashboard.

Step 2

Place title of post in this field.

Post's text is placed in this field.

Step 3

Step 6

The text appears in the post's body.

If you would like to include a thumbnail and image above the post body, follow these steps.

Step 1

Choose a "Featured Image" to be used as the thumbnail on the front page of your Learning Portfolio.
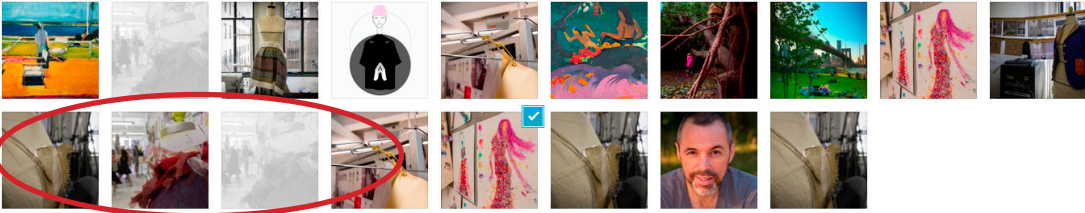

Step 2

Select the image that you want to be used as the post thumbnail from the WP media panel.

At the bottom of the page, click "Set featured image".

Step 3

Featured Image

The image for the "Featured Image" will appear in this field on the post admin page.
