

G e o

an inflatable from a stuffed animal

Process

I bought a stuffed animal of my choice.

I open the seems of the stuffed animal, took out the stuffing, and named each part.

Then, I found a piece of recycled yellow plastic tablecloth, and cut the pieces in the material.

Lastly, I stapled the pieces together following the order of the pattern.

Reflection

G e o served the purpose of experimenting and learning from the patternmaking process.

Final Piece
