

Police Surveillance

Union Square Walk 14th street

Have you ever wondered what its like to be a policeman? Today you will get to surveil the perimeter of Union Square Park. Get to Union Square Park starting on **14street in front of the subway entrance**. During your surveillance patrol you will separate your team of two. Lets make things interesting and start at two opposite sides of the park. One of you should start at the **George Washington Statue** and the other one at the **Pavilion restaurant** on the opposite side. Make sure not to be seen at any moment from your team mate but try and spy on them and **take a picture with your phone** if you see them! As you walk around the park try and think of as many possible ways that you could spy on your team mate. This should get you thinking about surveillance systems. Once you've started your walk record everything you see on the list provided below. With all the data you recorded **place it on the map to make your own surveillance system**.

1

RULES

Time yourself for 20min, do not leave the premier

2

MAP YOUR SURVEILLANCE

Use the map below to make your own surveillance system

3

FOR FUN

Check out: http://dotsignals.org/google_popup.php?cid=535 to see live footage of the park!

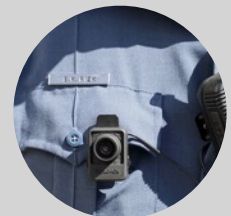

Be a Spy!

Take a picture of your team mate if you see them!
