

Expected Notions of Recurring Time

- Video
- Film
- Photography
- Audio
- Tech-based media

Lines of Movement at the same time.

How to Track Movement?

MAP TIME USING PHYSICALITY OF YOUR BODY IN RELATIONSHIP TO A PHYSICAL ENVIRONMENT OBJECT

Who's Body? What Place/Object? What activity?

My body + clothing + heavy clothes.

My body + Wash room + Showering / Sense. Brushing teeth.

I move time by head + music. when I'm taking a shower.

How do I map this time?

Dust? Are things getting old? Improvement?

Relationship to Light Around US.

What does the Do Both Objects?

- It empties and decays object
- It lets ~~memory~~ value slip away
- Grow

In Washroom moisture will destroy it.

Draw again

moisture destroys it.

Repetition:

time destroys. Overlap → time → Overlap

Using HEAT to demonstrate TIME PASSING

HEAT is an environmental factor.

My face during a portrait illustration

CONCEPT

↳ The cycle of renew → decay → renew.

WHAT: Portrait of my face

WHERE: Bathroom wall

WHEN: Renewing the painting everyday.

WHY: Record time

How: Using heat + moisture to decay/destroy the painting. (Incorporating the environment into this piece)

Aug 28, 29.

Sep 2, 3, 4, 5, 6, 7, 8, 9, 10.

Aug 28th

Went to see Edison. Sorry to my first Obj. 143 class. Went home.

Aug 29th

Went to Time → Slept. Went to Space. Home.

Sep 2nd Labor Day

Steps → Home.

Sep 3rd

Went to Time. Went to Library. Went to Space. Home.

Sep 4th

Went to Obj. 143. It central. I came. Stay. Look. Stay. Stay. Home.

Sep 5th

Went to Time → Home → Went to Space → Home → Home →

Sep 6th

Went to Studio → went to first Painting → Home as.

Sep 7th

Walked to Blue. Stay to

Sep 6th
