

41. Geometric figure in large size.

- This is the wall on the World Trade Center One. The wall is made by the large geometric figure on two different materials.
- The large size makes all these geometric figure have a feeling of modern and clean. If it is in the small size, it may looks dirty and like the old style kitchen or bathroom. Also, the color choice makes it steady and open.

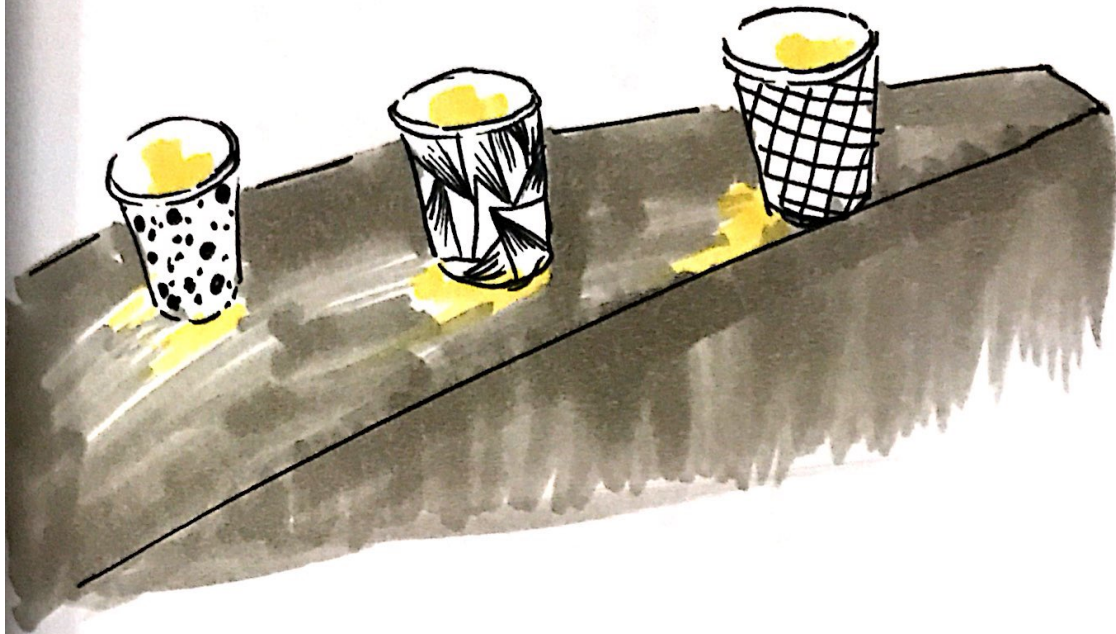

42. Chair in two
different
Materials.

This chair chooses the fabric as the inside material, plastic as the outside materials.

It ~~no~~ could make it seat comfortable and stable. Also, the outside plastic makes it easy to keep clean and ~~fa~~ safer.

43. Light as Cup.

These lights are made in the shape of "paper cups". Although they are made by the ceramics, they still look light and easy to carry. The warm light makes it look like paper, too.

All different patterns these maker cups have their own feature. They could be putted together or seperately.

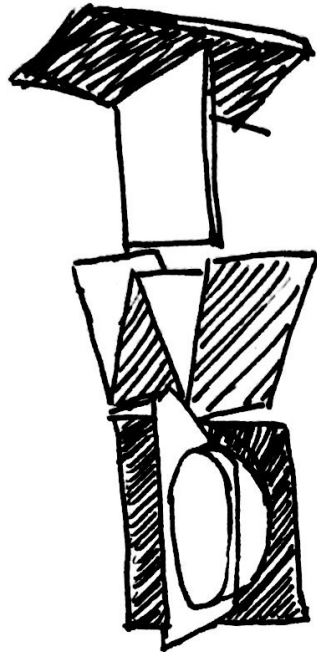

44. Signs with the brand feature.

This is the restroom signal in the restaurant Eatly. Since it is an Italy Restaurant, it choose the represent of Italian food — pasta, as the symbol of gender. The appearance of pasta has been use to show the feature of ~~man~~ male and female.

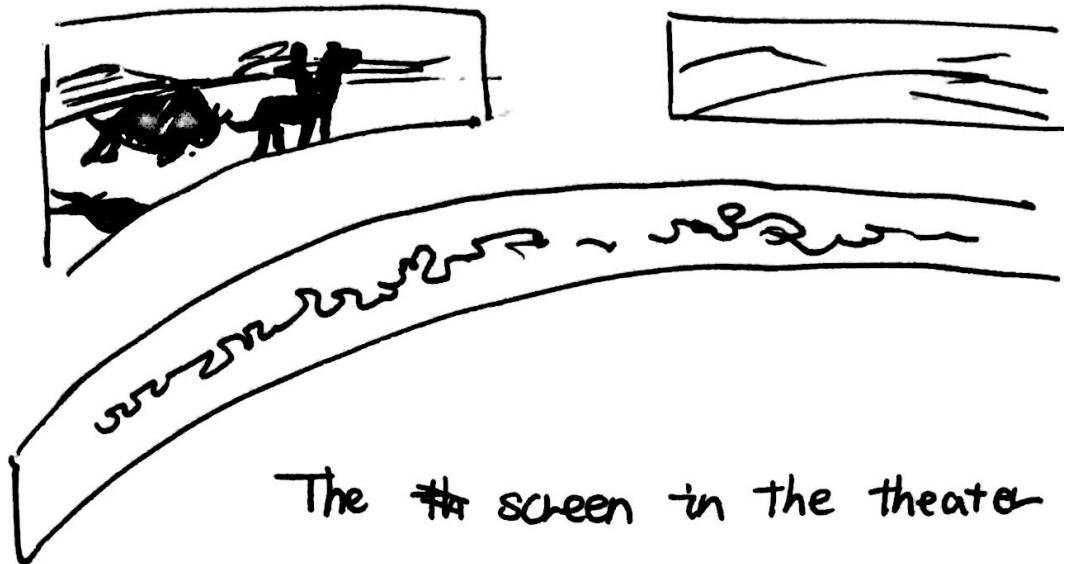

This is creative and interesting, which also points out the theme of the restaurant (market).

45. sculpture that could transfer information from different perspective.

People always see things from one perspective, but this sculpture ~~for~~ people gives people a chance to see it from different perspective. Since these three letters both made as solid, they could make the bulk of them also be a part of letter, that could transfer information. T is not look like I from other perspective, but still is a T.

45. Screen in the theater.

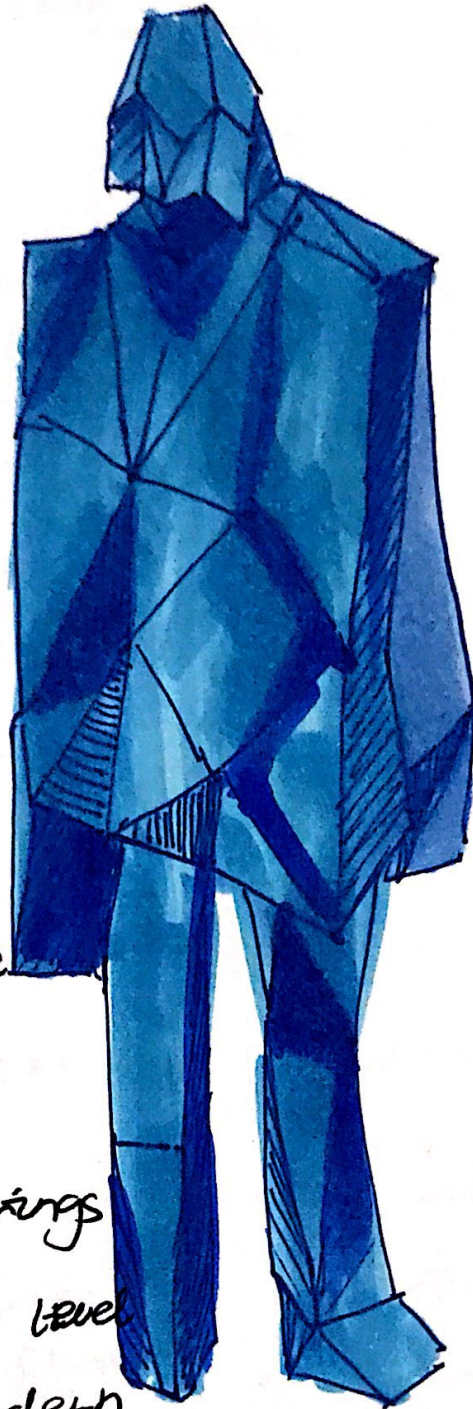

The ~~the~~ screen in the theater normally seen as the painting, but when the plot ~~is~~ required, light could work on it as the scene move by itself, which works for the story going on.

It does not take place for the stage to make an extra screen, ~~but~~ ^{and} also works as the decoration.

47. Geometric cutting sculpture.

This sculpture is made in the human shape, but in the abstract way.

This enlarge the effect of its color. Also, brings it to an art level with the modern meaning.

48. Glass + Milk.

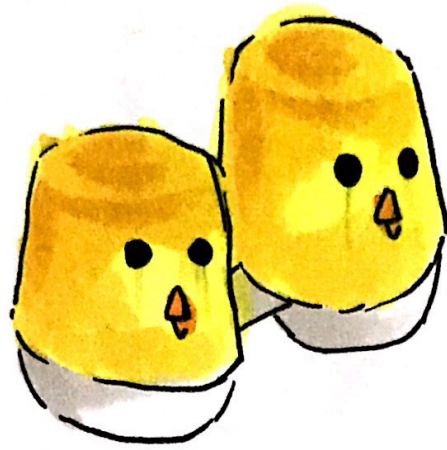

We always connect things we see with things we know even we don't know it.

Like when we see the Glass Bottle, we always connect to the time when milk need to be ~~set~~ delivered by someone in the glass bottle. This connection makes us think the milk we buy in the Supermarket is as same as the milk delivered years before.

49.

Using Animals.

"Animal ^{is} always ~~be~~ using in the product for kids and female. The color of animals always shown as bright and plentiful.

Also, it always touched soft and with curvature. These may be the reason of why it is attractive to kids and female. They love animals; they prefer soft and colorful things.

50.

The
Shape
of
Beauty
blender.

The beauty blender is made as a shape that easy for users to hold.

Also, it has two ends that satisfy the different requirement of using in different area. It is good for users to buy one tool with two functions.

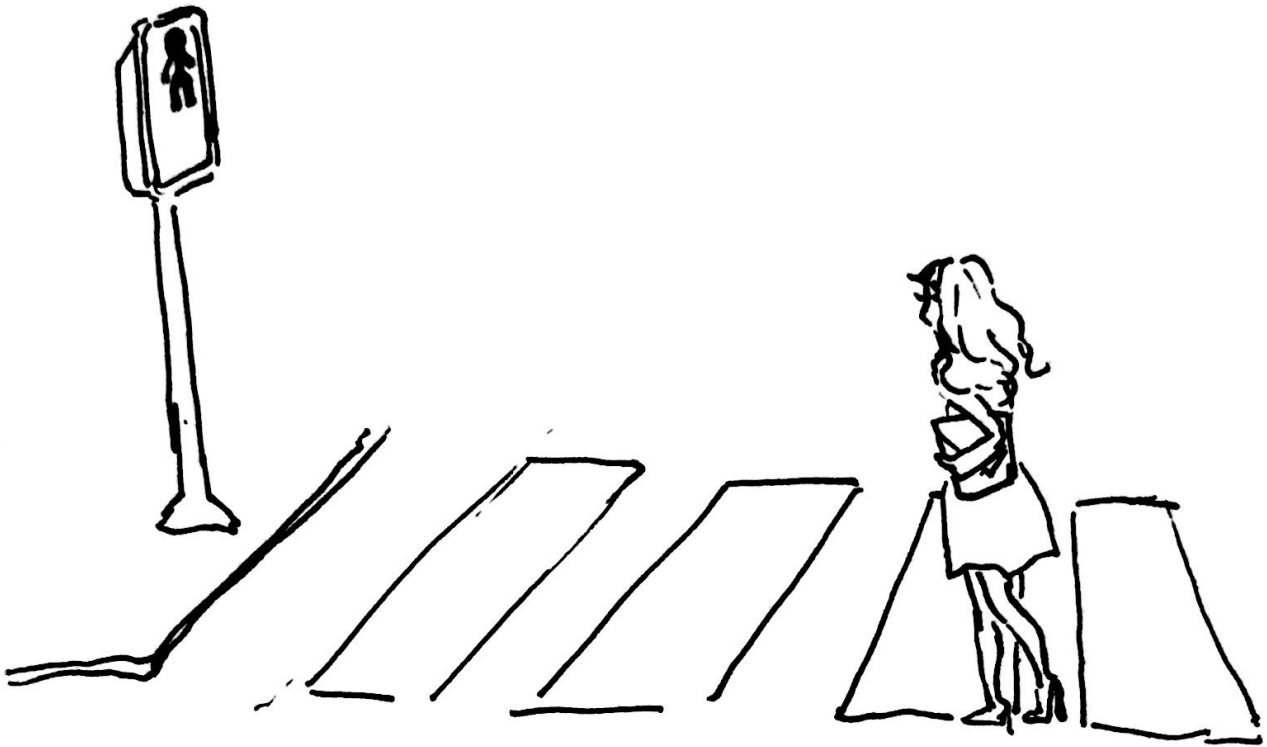

51.

Colour
Could
TELL

This candy made from Japan, and there is no English word shows it is a Matcha Favor. But since the packaging is in the green, the color of Matcha, people could easily know its a favor without without doubt.

52. Dangerous Pedestrian.

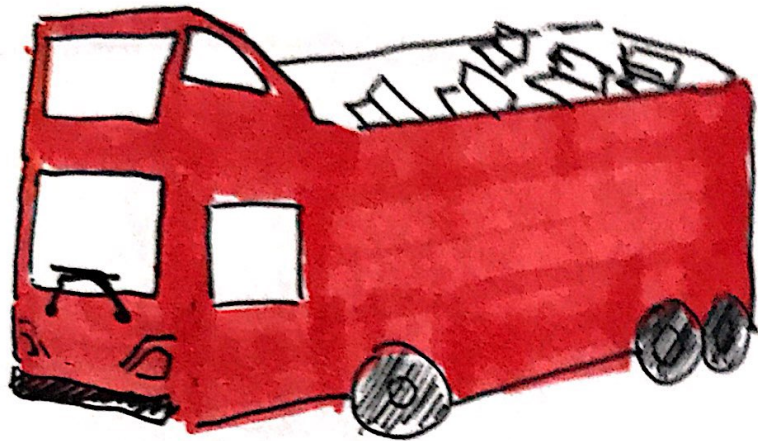

It was strange for me, when I came to NYC the first time. Pedestrians here do not really care about the traffic light. Because the street in NYC is not so wide, people could go through so quick. This makes them more focus on the passing cars, instead of the traffic light.

53. Flexible Light.

Whole body of this light is flexible.
This makes people able to use it anywhere.
Also, the light lamp parts is as same as
other parts, This is the reason of why
it looks so light and modern, and easy
to carry.

54. Viewing Bus.

There are many viewing buses on the street. Most of them are in color red.

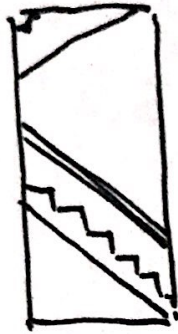

The top of all those busses are open, which could make visitors see outside clearly.

When it is raining outside, they could use ~~plastic~~ translucent plastic to cover the top,

so visitors could still see outside. The appearance of this bus is a part of symbols of New York City.

53: Architecture.

< MoMA >

This is the Stair in MoMA.

People could see only a part of it from outside
when people inside could "sometimes" see whole
thing in the outside.

cover a part of it gives new sight for
pedestrian from both inside and outside.

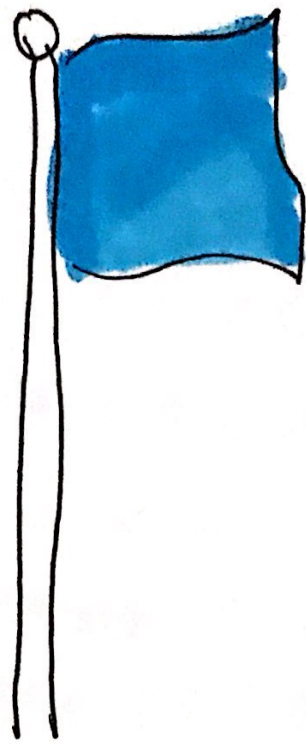

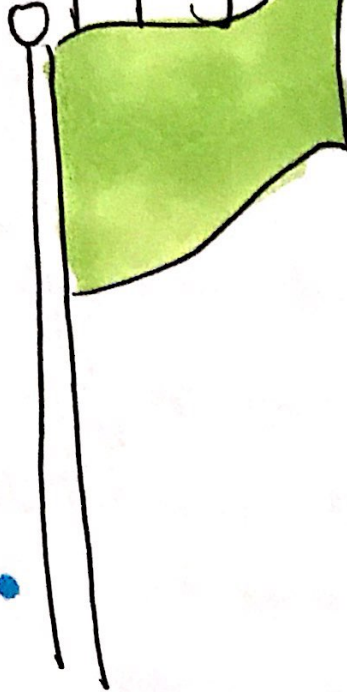

56

When I was in China, I always use Skype to call the U.S.A. The sign of it is so interesting for me. The original one of it is like the cloud, which show the conception of Internet — doing in cloud. It shows it could beyond the national boundary and ^{be} convenience to anyone.

57. meaning

of flags.

Flags always have strong meaning. It could show the logo of one brand, or the national flag, or the inspiration of one group.

They always large and easy to catch other's attention. We can see it anywhere in the city.

58. animals in the city

Squirrel is an animal that we could see anywhere in the city, especially in parks. They don't afraid of people.

59. Sculpture.

The sculpture in the contrast color, Red and Blue. This shows the passion of love. Also, it could draw Pedestrians' attention well since they are both strong color.

60.

Fountain in the Lincoln Center uses the warm light, instead of colorful light, like pink or blue. This makes it look like gold and feel elegant, especially when it sits with the black marble.
